“

Building smarter spaces with materials that last—

Treelab blends innovation, strength, and sustainability for the future.

”

About **US**

Treelab is a pioneering manufacturer of next-generation building materials, committed to transforming the construction and furniture industries. Headquartered in Haryana, the company specializes in the production of high-quality WPC, PVC, MDF, and HDF products, setting new benchmarks in durability, performance, and design.

Driven by innovation and sustainability, Treelab offers an extensive range of solutions for both indoor and outdoor applications—ranging from decking, fencing, and cladding to furniture, interiors, and décor. Each product is thoughtfully engineered to meet the evolving needs of architects, builders, designers, and homeowners.

At Treelab, excellence goes beyond manufacturing. With state-of-the-art production facilities, stringent quality control systems, and a strong commitment to environmental responsibility, we ensure products that not only enhance modern living spaces but also contribute to a greener and more sustainable future.

MISSION

VISION

VALUES

MISSION

To deliver high-performance, durable and innovative panel solutions that protect our customers' investment and enhance modern living spaces.

We are committed to providing waterproof, termite-resistant and long-lasting boards that combine strength with superior finish.

VISION

To become India's most trusted and preferred brand in the panel and interior solutions industry.

We aim to set new benchmarks in quality, innovation and reliability while building long-term partnerships with architects, dealers and customers.

VALUES

At Treelab, quality is not just a standard but a commitment. We believe in continuous innovation, ensuring that our products evolve with modern construction needs and design trends. Integrity and transparency guide every partnership we build, whether with dealers, architects, or customers. We focus on durability and reliability so that every product delivers lasting performance. Above all, we are driven by customer satisfaction, striving to create solutions that combine strength, safety, and superior finish.

Printed Board

At Treelab, we don't just make boards—we build trust, durability, and design into every product. Driven by innovation and sustainability, Treelab delivers next-generation solutions for modern spaces.

Prelam Board

Treelab Prelam Boards combine superior finish, lasting strength, and everyday functionality. Designed for smooth surfaces, sharp aesthetics, and long-lasting performance. From wardrobes to workspaces, Treelab Prelam Boards bring reliability and style together.

Textured Board

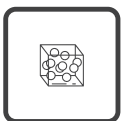

Treelab Textured Boards bring depth, elegance, and durability to modern interiors. Rich textures crafted to enhance both look and feel. Designed to add character. Built to last. Where surface design meets superior performance.
